While millions of military families have strong marriages that survive the pressure of command, deployment separations, and tension, some marriages, those that were weak to start with, will not make the cut. But what choices does an officer have if his marriage is disastrous? A messy divorce can end his career. A love affair, if discovered, can bring disgrace and a court marshal. Staying married and "playing the game" may bring promotion and prestige, but it also breeds hypocrisy and eventual hatred and violence. The novel is one of loneliness and longing, family malice, infidelity, and betrayal. But the mystery is for the reader to determine who really betrayed whom. It is also the tale of a life-long, loyalty that nothing can tarnish. A gifted officer, Neil Sedgwick, becomes exhausted and lonely after years of his wife's rejection and tells her he wants a quiet divorce so as not to destroy his Army career. Eventually, he falls in love with a woman he sees as his life's companion and naively believes he can protect the woman he loves, his children, and his next promotion. When his estranged wife threatens both his career and his children's custody, she declares she will "...pin on his general's stars, or be damned sure he never gets them." His most painful choice comes when he learns that command of a military unit is not necessarily command of his own life. Where can he turn when the choice is between his duty to the military and his devotion to the woman he loves?
